

CACHING ENGINE SYSTEM WITH OUTSTANDING RELIABILITY, SPEED AND SUPPORT THAT YOU CAN RELY ON

<http://www.lockedbin.com>

Lockedbin caching engine is a high-performance, distributed memory object caching system, generic in nature, but originally intended for use in speeding up dynamic web applications by alleviating database load.

Our clients has reported that their database server are 80% lower on resource usage but their users are happier with fast app access, after implementing **Lockedbin** cache engine on their IT infrastructure.

We have pack our product into software appliance package, in form of DVD ISO, so our customer can customize server hardware, architecture and cluster with freedom in mind.

Product Requirement and Specifications

CPU	: 16 cores (minimum)
RAM	: 64Gb (minimum)
Harddrive	: SSD 64Gb RAID 1 (minimum)
Network Card	: 2 x 1 Gigabit Ethernet (minimum)
Min Throughput	: 1 Gbps
Compatible with	: PHP, Perl, Python, and Java
Cluster	: Yes, unlimited node
Admin Console	: Web based console
Package	: DVD ISO
